ICF LEVEL 2 COACHING EDUCATION

EVOLUTION COACHING ACADEMY

Leading to ICF PCC Professional Certified Coach Credential
Program Accredited by International Coach Federation

2025 DETAILED PROGRAM PRESENTATION

About Evolution Coaching Academy

Evolution Coaching Academy is an ICF Level 2 and Level 1 Accredited Coaching Education Provider. We offer comprehensive coach training programs that are accredited by the International Coach Federation as Level 1, Level 2, ACTP and ACSTH.

The programs offer comprehensive education, training and mentor coaching in the Core Coaching Competences and Code of Ethics as defined by the ICF. The programs prepare the participants for conducting a trustworthy and grounded coaching practice, and for obtaining the ICF internationally renowned coach accreditation at Associate Certified Coach (ACC) and Professional Certified Coach (PCC) levels.

We adhere to the ICF's Program Accreditation Code of Conduct. Our Instructors, Mentors, Supervisors and Examiners are practicing ICF Accredited Coaches complying to the ICF Code of Ethics.

Evolution Coaching Academy is grounded in a holistic philosophy of empowerment, collaboration and evolution of life. For us, individuals, relationships, teams and organisations are living organisms. We facilitate our client's journey towards feeling empowered, clearer about their purpose and direction, recognising that their experiences serve them as valuable learning through which they evolve in the spiral of life on our planet.

The coach training, mentoring and supervising programs are intended for people with an open heart, who feel the calling of the coaching profession and who want to work with other people to support them in their growth and evolution.

We provide coaching services that adhere to ICF ethics and standards, in the areas of individual, relationship, team and organisation needs. We support organisations to apply those services in a valuable, ecological and sustainable way for themselves, their people, the environment and partners in their journey. Our services are delivered in one-to-one, relationships of two and group (3-100) formats.

We complement our coaching expertise with holistic organisation management, leadership and sustainable collaboration competencies. We have created a number of our own development models that we share in our training programs, consultancy and mentor coaching.

Everything we provide is grounded in the philosophy described above. Our coach training, supervision and mentor coaching programs combine the art, ethics, competencies and standards outlined by the ICF. We apply the knowledge and experience of the fields clients most often choose to evolve in, as individuals, as partners in a relationship and as members of teams or communities.

Intuitive Coach Level 2

Overview

The program is accredited as Level 2 Coaching Education by the ICF. It consists of all educational elements required by the ICF to apply for ICF Professional Certified Coach (PCC) credential.

Who is the Intuitive Coach Level 2 program for?

It is a deep development process for intermediate to advanced coaches who:

- Intend to apply for ICF accreditation at the PCC (Professional Certified Coach) level
- Have completed 350 hours or more of coaching practice with their clients
- Have completed 60 hours or more of coach training, for example: The Birth of the Coach, or other ICF accredited coach training, or 200 hours or more of non-ICF accredited coach specific training
- Value personal development and are willing to share their experiences with other participants
- Are open to dive into the unknown, broaden perspectives and expand perception
- Deeply care about the relation between humanity and the rest of the planet.

Program Mission

- Developing skills, knowledge and awareness at the PCC level, grounded in the ICF Coach Code of Ethics and 8 Core Coaching Competencies as defined by the ICF
- Deepening and forwarding personal evolution
- Expanding Coaching Presence by perception of signals coming from the Natural World and energetic fields
- Learning differences between ACC and PCC levels of competencies as assessed during the ICF examination process
- Calibrating one's own performance against the PCC exam criteria

The participant will be invited to journey towards the essence of the client-coach dynamic, into the depths of self, the client and the coaching relationship.

WHAT FOR? To support the evolution of the **WHO** of the client as a whole, resourceful and naturally creative person. Although the applicants can meet the ICF credential criteria at the **ACC** (Associate Certified Coach) level by focusing on supporting the client mostly in the **WHAT** i.e:

- Finding a one-off solution to the agreed goal and/or
- Using coaching tools

The assessment at the Professional Certified Coach (PCC) level expands to:

- Coach's genuine curiosity of the WHO of the client as a holistic human being: evoking new awareness beyond the client's current frame of thinking and feeling about who the client is, their situation and the reality they desire. It is about the client's sustainable evolution rather than a one-off solution
- Coach's presence 'here and now', self-acceptance and self-awareness, the courage to take risks, staying vulnerable and 'not knowing'. Trusting the client, trusting self and trusting the coaching process. Sensitivity to the energetic field and non-verbal signals
- Quality of spontaneous, intuitive coaching conversation; the quality of holistic observation and responding to the client; partnering in what happens during the session, honouring and holding the client responsible for their life and their learning
- Awareness that an attachment to the structure of a coaching tool instead of hearing and following the client 'here and now' may result in failing the exam.

The participant will also be invited to journey to the essence of their identity and calling, natural working style and profile of the client they naturally serve. Thriving in this programme requires a high level of openness, readiness to work at a level of depth, essence, intuition and energy field. All group modules consist of: 80% experience, experimentation, reflection and debrief, observation and feedback and 20% theory.

We have observed how important learning in one-to-one contact with the teacher is for the participant's development. Therefore the program includes 3 one-to-one 'observed sessions' and 3 one-to-one 'mentor coaching sessions' for each participant.

Intuitive Coach Overview

Level 1 and 2

Level 2 Intuitive Coach includes 140 Contact Hours and consists of two stand-alone programs:

Level 1 The Birth of a Coach for beginning coaches, applicants for the ICF Associate Certified Coach (ACC) Credential

This ICF Accredited Level 1 Coaching Education is taught at 'beginner' to 'intermediate' coaching competency level. It is intended for participants starting their journey of learning coaching competencies. The Birth of a Coach provides a foundation for the participant to start a coaching practice in line with ICF standards in following areas: leadership, relationship, team and organisation. The program and the participation fee are inclusive of:

- 60 hours of Coach Training delivered synchronously in real time interaction between the participants and educators
- 7 hours of Mentor Coaching delivered synchronously in real time interaction between the participants and educators
- 3 hours of one-to-one Mentor Coaching sessions for each participant
- 3 one-to-one Observed Sessions. Each participant can audio-record 3 of their coaching sessions with their clients, upon which the educator provides in one-to-one setting, an oral and written feedback on 8 ICF Core Competencies according to the ICF ACC level examination standards.
- ACC Performance Evaluation. The program is authorised by the ICF to conduct this oral part of ICF ACC Exam.

The graduate of The Birth of Coach receives an ICF Level 1 Coaching Education Certificate.

Graduates of The Birth of a Coach can afterwards either:

1. Apply for the ACC credential via Level 1 ICF Path or
2. Go to ICF Level 2 Intuitive Coach. This way the graduate will become eligible to apply directly for the ICF PCC credential via Level 2 Path.

Level 2 Intuitive Coach Level 2 for advanced coaches, applicants for ICF Professional Certified Coach (PCC) Credential

This ICF Level 2 Accredited Coaching Education is taught at an advanced coaching competency level. The training experience is grounded in the participant's deep personal development, eliciting their intuitive potential for co-creating with the client. The participant is introduced to supporting the client holistically in variety aspects of their existence as part of the human world as well as the Earth living system. The program offers new awareness about the participant's vocation.

Level 2 Intuitive Coach is intended for experienced coaches with a foundation of a prior 350 hours or more of coaching practice and 60 hours or more of coach specific training. This can include the graduates of The Birth of a Coach as well as graduates of a variety of coaching programs delivered by other schools. This way we provide a wide range of practicing coaches with an accreditation eligibility directly at the ICF PCC level. The program and the participation fee are inclusive of:

- 45 hours of Coach Training delivered synchronously in real time interaction between the participants and educators
- 7 hours of Mentor Coaching delivered synchronously in real time interaction between the participants and educators
- 3 hours of one-to-one Mentor Coaching sessions for each participant
- 3 one-to-one Observed Sessions. Each participant can audio-record 3 of their coaching sessions with their clients, upon which the instructor provides in a one-to-one setting, an oral and written feedback on the 8 ICF Core Competencies according to the ICF PCC level examination standards.
- PCC Performance Evaluation. Evolution Coaching Academy is authorised by the ICF to conduct this oral part of the ICF PCC Exam.

The graduate of the Intuitive Coach receives an ICF Level 2 Coaching Education Certificate.

ICF Level 2 Certificate entitles the graduate to apply for the ICF PCC credential via the Level 2 Path, without a need to prior applying for the ACC credential.

Intuitive Coach and ICF PCC Accreditation Process

Intuitive Coach Level 2 consists of all educational elements required by the ICF to apply for ICF PCC (Professional Certified Coach) in all credential paths.

ICF Minimum Requirements for PCC credential application via Level 2 Path are:

- Level 2 ICF Accredited Coaching Education Certificate from completing Intuitive Coach
- The coach's personal 'Coaching Log' documenting 500 hours of coaching experience (450 of which need to be paid) with at least 25 different clients. The hours are counted from the start of coach-specific training which is ICF accredited as Level 1, ACSTH or ACTP, for example The Birth of a Coach.

Graduates of Intuitive Coach receive ICF Level 2 ICF Accredited Coaching Education Certificate.

If the participant's prior coaching training was not ICF-accredited, with Intuitive Coach certificate they become eligible to apply for PCC via ICF Portfolio Path.

More information about the ICF ACC credentialing process can be found by contacting us or on the ICF Website:

AUTOPORTRAIT, GROUP MENTOR COACHING

1st Module of Intuitive Coach, Level 2

The first module is a group mentor coaching. Its purpose is:

- Refreshing and grounding the Code of Ethics, Definition of Coaching and 8 Core Coaching Competencies as defined by the ICF and evaluated in the accreditation process at the PCC level
- Participants' calibration of their coaching competencies in reference to the ICF requirements at the Professional Coach Certification (PCC) level.

This module serves as a foundation for establishing a coherent perception of the coaching profession amongst participants with diverse experience and prior education. It is a base for deepening coaching competencies in the subsequent modules. Before the start of this module, it is recommended to read the description of the ICF Code of Ethics and 8 ICF Core Coaching Competencies.

In this Module the participants will be invited to:

- Explore their understanding of the ICF Definition of Coaching and Code of Ethics
- Explore their understanding of the 8 ICF Core Coaching Competencies at the PCC level
- The instructor will outline the minimum requirements of the above competencies as evaluated by the ICF in the accreditation process at the PCC level; as well as the differences in these requirements in relation to the level of ACC (Associate Certified Coach).

Logistics:

- 2 days x 3,5 hours of group Mentor Coaching sessions via Zoom

After the meeting:

- Participant's coaching practise
- One-to-one Mentor Coaching session with the instructor via Zoom
- One-to-one Observed Coaching session with the instructor via Zoom
- Observed coaching session in triads with other participants

COACH IN A SUPERPOSITION

2nd Module Intuitive Coach, Level 2

The purpose of this module is for the coach to dive into their unique resourcefulness and its application to the coaching relationship with the client. The participants will reach the essence of their holistic self, accessing intuition, their resources and capabilities from a state known as ‘superposition’ in quantum mechanics.

Coaching in such a state of being is the foundation of the coach’s competences at the PCC level rather than following the structure of coaching tools (being accepted at the ACC level).

Restoring the client’s relationship with the natural world as part of their holistic well-being and evolution has been infused to the content to this module. It is our response to the existential challenges of our time.

In this module the participants will be invited to:

- Experience a grounding in the ‘here and now’, in self-generated intention; acceptance of the holistic self, the client and what is happening during the session; trusting self, the client and the coaching process. The ICF defines such competencies as ‘Embodies Coaching Mindset’ and ‘Maintains Presence’. Students will learn and experience the difference in demonstrating this competence between the PCC and the ACC levels
- Practice a spontaneous, intuitive coaching conversation at PCC level without using coaching tools
- Experience a grounding in the ‘here and now’, in self-generated intention; acceptance of the holistic self, the client and what is happening during the session; trusting self, the client and the coaching process. The ICF defines such competencies as ‘Embodies Coaching Mindset’ and ‘Maintains Presence’. Students will learn and experience the difference in demonstrating this competence between the PCC and the ACC levels
- Experience and practise their connection with the client flowing from ‘Presence’ and “Mindset” becoming the quality of a competence defined by the ICF as ‘Cultivates Trust and Safety’ at the PCC level
- Learn to connect self and the client with the natural world as part of a coaching conversation
- Feel expansion of one’s intuition, which draws from the above-described state of being and its manifestation unfolding in powerful questions ‘Evoking Awareness’ (ICF competence), where the client is transforming as a whole (a coaching mission, evaluated at the PCC level)
- Learn to observe and follow the energy field during the session, regardless of whether it is a face-to-face or over the phone/Zoom, instead of searching for or following a structure of a coaching tool
- Practice how to deepen the coaching goal expressed by the client at the beginning of the session to support the client in discovering the meaning of this goal as a portal for their personal evolution as a human being. That is contracting a coaching session (ICF competence) at the PCC level
- Practice bringing a coaching session to an end, rooting the client’s new awareness and generating actions which the client truly intends to undertake, as they are deepening and grounding the process of their transformation in their daily life (ICF competence)

Logistics:

- 3 days x 5 hours of group Training via Zoom

After the meeting:

- Participant's coaching practise
- One-to-one Mentor Coaching session with the instructor via Zoom
- One-to one Observed Coaching session with the instructor via Zoom
- Observed coaching session in triads with other participants

COACH IN A CREATIVE SPACE

3rd Module Intuitive Coach, Level 2

The purpose of this module is to connect the client with WHO they are being, WHAT they are here for and their PATH on our planet. The coaching conversation embedded in the quality of 'superposition' will be broadened by creative portals opening and expanding the client's access to their intuition:

- Environment
- Intuitive drawing
- Sound
- Body
- Movement
- Energetic geography in coaching

These kinds of portals are particularly useful in group coaching and where a system is the client, for example: a team, family or relationship. In one-to-one coaching, they offer a valuable alternative for clients who get caught in a loop in a coaching conversation. By embracing the 'body', 'senses', 'environment' and 'imagination', the client skips the analytical mind and discovers the truth about themselves, revealing often surprising answers that are coherent with them. They connect with their intuition, their subconscious and superconscious mind. By connecting the unfolding experience with their conscious mind they create new awareness (ICF competence), surpass the loop and transform as a holistic human being ('WHO' coaching mission at PCC).

In this Module, the participants will be invited to:

- Explore three existential questions for the client's journey through life and their role on our planet: WHO they are being, WHAT they are here for and their PATH
- Experience how coaching integrated with art, movement, environment and imagination greatly supports the process of the client's integration at all three levels: spirit, mind and body
- Learn the authenticity, depth and lightness of such a process, where the client's connection with their intuition is much quicker, more effective and joyful as well as compassionate
- Deepen skills of observing, tuning into and following the energetic field during the session
- Reflect on the application of the above mentioned access channels: exploring with what type of clients and in what kind of circumstances it could serve as a valuable inclusion in a coaching conversation
- Contemplate if any of the portals resonates with them in their natural style and intention to work with the clients. If yes, they will enrich their coaching conversation by developing it at a initial level

Logistics:

- 3 days x 5 hours of group Training via Zoom

After the meeting:

- Participant's coaching practise
- One-to-one Mentor Coaching session with the instructor via Zoom
- One-to one Observed Coaching session with the instructor via Zoom
- Observed coaching session in triads with other participants

COACH AND CLIENT IN A RELATIONSHIP

4th Module Intuitive Coach, Level 2

The aim of the fourth (and last) module is to integrate the discoveries from the previous modules and help the participants articulate their new awareness in:

- Understanding whom I am a coach for. Who are my natural clients?
- What are the areas of my natural coaching specialisation and with what purpose?
- What do I bring to my clients: what is my natural essence that completes my clients, which serves them in their evolution at this stage of their lives, and which serves our coaching relationship as well as my own self-realisation?

In this Module, the participants will be invited to:

- Observe what relationship they currently create with a client and what is their potential when engaging with 'their natural client' and when they are their authentic self, integrated with their essence:
 1. What is the personality of this relationship?
 2. What are the relationship's resources, possibilities, potential?
 3. What is the relationship dreaming of, what does it need?
 4. What is the participant's contribution to the relationship's personality, its quality and potential?
- Unfold and ground awareness of their 'natural style' of coaching that serves their 'natural clients' when they are authentic with who they are in their journey of self-realisation as a coach and as a human being
- Develop a personal plan, applying the above, for their coaching practice

Logistics:

- 3 days x 5 hours of group Training via Zoom

After the meeting:

- Participant's coaching practise
- ICF PCC Performance Evaluation

Author and Director of Education

Lilith Joanna Flanagan,
Founder of Evolution Coaching Academy

- 2500+ hours of coaching practice: life and business; individual and team coaching, besides others in: schools, local communities, women communities, NGOs as well as IBM, Orange, Groupon, Coca-Cola, AVIVA, Innogy.
- Author and teacher of coaching education programs accredited by the ICF: Level 1 *The Birth of a Coach*, Level 2 *Intuitive Coach*, and recently created Level 3 *Ecosystem Master Coach*. 98% of the graduates who applied have received the ICF Accreditation.
- Over a hundred of her alumni and mentor coachees are currently holding ICF ACC or PCC or MCC ICF Credential.
- MSc Holistic Science at Schumacher College, UK (2015), MBA with Distinction (2000), MA Economics in Banking and Finance (1996), 12 years of classic music education in faculty of piano and rhythmic.
- Before her coaching journey, she experienced 10 years of managing business in multinational corporations: in ING, FUJISTU (formerly ICL). She used to lead several hundred, multi-layered human organisation structures in the areas of operations, sales, marketing, business strategy and key program management.
- In the last ten years Lilith has expanded her organisation awareness and skills in several holistic programs connecting the mind with the body with the heart as well as in coach training programs: CTI, ORSC, TeamCoachingInternational.

VALUES AND PASSIONS

- Lilith enjoys living close to Nature, 29 years in a relationship with Patrick with two sons: Michael and Daniel.
- She appreciates impact of coaching on creating trust and reciprocal relations in society. Therefore, with a joy and passion she shares her knowledge and experience with ascending generations of coaches.
- She combines life in human society with being a member of the community of Nature and the planet Earth. Her ongoing curiosity centres around 3 questions: "Who are you?", "What are you here for?", "What is your path?"
- She envisages the world where humans respect other members of our planet and are willing to engage with them for collaborative cohabitation and coevolution.
- In her Holistic Science MSc dissertation, Lilith explores language of oscillations, entrainment and song in a participatory, meaningful interspecies communication. She observes parallels in all relationships between living beings self-organizing into a community.
- In 1-2-1 coaching Lilith specialises in Intuitive, Holistic and Environmental Coaching.
- She co-authored 'EcoBusiness Evolution Spiral' a partnership model of organisation evolution towards an environmentally sustainable business.
- Personal development workshops of her authorship combine body, mind and heart in Nature with coaching facilitation and artistic creation: music, intuitive dance, singing and drawing.

VALUES AND PASSIONS

- Frosina finds joy in the flexibility of splitting her time between Macedonia and Germany, alongside her husband Stefan and their son Damian.
- She has immense love for nature, cherishing moments in the great outdoors, especially during sunsets and next to water, and she's always on the lookout for a kid's park to explore with Damian.
- Music and rhythm are key part of her life – and it's one of the ways how she experiences her coaching practice – a dance to the client's question.
- Frosina passionately believes in the transformative power of coaching, enabling individuals to assume greater responsibility, connect with their core essence, and foster profound respect for both humanity and the natural world.
- Her workshops are founded on the fundamental belief that authentic relationships are the cornerstone of every thriving organism, and she passionately advocates for and actively facilitates the process of nurturing and developing whole intelligence to foster resilience, well-being, and the cultivation of effective leadership skills.

Testimonials

Jennifer, Intuitive Coach Alumna:

" I found the Intuitive Coach Advance course so much more than a training course. The information and experiences provided by Lilith, along with the group interaction and coaching experiences have been deeply transformative for me as an individual as well as a coach. Lilith makes experiential learning fit with the ICF markers and competencies in such a way that you fully experience their benefits but also learn how to work effectively within them as a coach. Lilith was incredibly welcoming, open and responsive to the needs of the whole group and managed the structure and timings of the day wonderfully and very naturally. The venue was calm and peaceful providing an opportunity to connect with the natural world and enhance our coaching skills and personal experiences even further.

My time of the course will stay with me forever and I can't recommend it highly enough."

Hilary, Intuitive Coach Alumna:

"The programme I attended with Lilith was very insightful and stretched all my boundaries, in a good way. It was a great combination of intuitive and practical, really enabled me, and my colleagues, to grow and explore areas that you can't do day to day. Lilith was a delight, she is extremely authentic and allows and respects your own presence to really explore areas useful and valuable as a coach and professional (and person). I would highly recommend this programme."

Ian, Intuitive Coach Alumnus:

"I had a fabulously engaging time as a student with Lilith. She created a powerful co-active space which allowed me to grow as a coach. I can whole heartedly recommend including Lilith in your development on your coaching journey."

Maja, Intuitive Coach Alumna:

"Course "Intuitive Coach", has allowed me to deepen my contact with my emotions and intuition. I did not think even that one can so strongly feel the connection with the client at every level ... Soaking up what he says, filling me with his emotions, reflecting it to him and leading an in-depth dialogue of souls. The course will open up people who like to experiment. It is worth to experience. "

Sylwester, Intuitive Coach Alumnus:

"For me, the participation in the course Intuitive Coach, enabled my self discovery. First of all, as a human being. At the same time a great preparation and consolidation of forms of coaching at the level of PCC ICF. The program is tailored so that it takes into account the level of each participant. Key resource of the course is the way it is lead, the instructor shares her passions and vast experience in coaching. At the same time she creates a space for everyone to give their own contribution, and it promotes the exchange of learning and growing. I recommend it to all coaches who are thinking primarily about their development and at the same time as a path to accreditation by the ICF. "

Monika, Intuitive Coach Alumna:

"First of all I would like to thank you as the author and leading school. You connect to a gentleness, and a deep understanding, respect and steadfastness. This is an unusual combination - supporting and engaging at the same time. Didactic material, in which we have endowed, was a wise, rich and a valuable source of information and inspiration to continue to work on oneself and coaching skills. In addition to exercises and work developing intuition, understanding clients, and process on a deeper level, I have learnt to manage my session time. I can now lead a session, so that regardless of the time, I have available, I can complete and give the possibility the client's insight and reflection."
